

Going fishing? Don't be left high and dry.

Rely on ACDelco Marine Batteries.

- Specially designed for use in demanding marine environments.
- Light weight factory heat-sealed polypropylene cases provide high resistance to shock and heat damage.
- Maintenance free, acid filled at the factory requiring no ongoing maintenance. A built-in hydrometer determines state of charge at a glance.
- Flame arrester safety system to prevent the chance of explosion from external sparks.
- Dual terminals for easy connection of Accessories.
- High cranking ability - 850CCA on the MF31SMF830.
- 24-month replacement warranty*.
