# History

For years, ACDelco has been recognised as a world-class leader in the automotive aftermarket. And it's no surprise, since the brand dates back as far as the turn of the 20th century.

Our strong presence in the industry, as well as our commitment to the ultimate in quality, has stayed consistent too, helping us build a worldwide reputation as a premium source for experience, dependability, technology and performance.

- 1901** The Remy brothers founded the Remy Electric Company.
- 1908** The AC Spark Plug Division was established by Albert Champion.
- 1910** C.F. Kettering invented electric starting equipment for automobiles, and Dayton Engineering Laboratories Company (DELCO) began producing these parts.
- 1916** United Motors Corp. (UMC) was formed by Alfred P. Sloan Jr. That same year, UMC formed United Motors Service, Inc. (UMS) to distribute and service parts made by UMC. UMS was the forerunner for General Motors® parts business.

The early brains behind the brand, from left: Albert Champion, Frank Remy & Alfred P. Sloan Jr.

- 1926** Remy Electric merged with Dayton Engineering Laboratories Company (DELCO) to form Delco Remy Corp.
- 1971** UMS changed its name to United Delco Division.
- 1974** United Delco and AC Spark Plug's sales and marketing organisations merged, resulting in the AC-Delco Division.
- 1986** Service Parts Operations (SPO) was created, and ACDelco represented it in the aftermarket.
- 1995** The ACDelco logo changed its appearance to reflect a continuing commitment to expanding its aftermarket presence with most makes / most models product coverage.
- Today** ACDelco continues to reinforce its dedication to global aftermarket leadership with a strong pledge to uncompromising standards, and a full offering of quality automotive replacement parts for most vehicles on the road.

1908 – AC Spark Plug Division

1916 – United Motors Service, Inc.

1971 – United Delco Division

1974 – AC-Delco Division

# Sealed Maintenance Free Batteries

fit with confidence!

All ACDelco SMF Batteries feature lead calcium expanded grids (Lead Calcium Technology) for improved resistance to corrosion, overcharging, gassing, water usage, self discharge and thermal runaway, all of which limit battery life in conventional lead acid batteries. The range includes batteries to suit cranking/starting (traditional automotive), high cycle, dual purpose starting/deep cycle and deep cycle applications.

## Features & Benefits:

- / Built in hydrometer (most batteries) - Indicates state of charge.
- / Factory-sealed - Makes these batteries truly maintenance free.
- / Polypropylene case - Reinforced design is precisely tailored to support the battery elements to withstand road shock and vibration. This strong durable material combines light weight with high impact strength.
- / Liquid-gas separator area - Returns liquid to reservoir for longer life.
- / Integrated or rope handle - For ease of transport and installation.
- / Flame arrestor - Safety system, prevents explosion from sparks outside the battery, minimises acid leakage, prevents inflow of dust.
- / Heat sealed covers - Helps prevent electrolyte contamination and increases case strength.
- / Centered cast on plate strap - Stronger than thinner gas-burned conventional connectors.
- / Low resistance envelope separators - Encapsulated negative plates help to prevent shorting/treeing between negative and positive plates as well as aid in vibration durability.
- / Increased battery shelf life - Up to 12 months shelf life without charging due to the use of Calcium/Calcium grids. (Compared to conventional batteries).

**Built in Hydrometer**  
indicates state of charge at a glance.

**Factory-Sealed, Lead Calcium technology** makes this battery truly maintenance free.

**Polypropylene Case**  
combines light weight with high-impact strength.

**Heat Sealed Covers**  
help prevent electrolyte contamination and increase case strength.

**Separator Envelopes**  
encapsulated plates to prevent shorting.

**Cutaway of Sealed Maintenance Free Battery**

## Low Maintenance Accessible Batteries fit with confidence!

All ACDelco Low Maintenance Accessible Batteries feature lead calcium expanded grids (Lead Calcium Technology) for resistance to corrosion, overcharging, gassing, water usage, self discharge and thermal runaway, all of which limit battery life in conventional lead antimony batteries.

### Features & Benefits:

- / Accessible coin top vent caps (most batteries) to allow filling if required - Coin top vent caps also allow easier fitment for applications that require a flat top for top hold down bracket mounting.
- / Polypropylene case - Reinforced design is precisely tailored to support the battery elements, a strong durable material to withstand road shock and vibration. Combines light weight with high impact strength.
- / Integrated or rope / plastic handle (most batteries) - For ease of transport and installation.
- / Centered cast on plate strap - Stronger than thinner gas-burned conventional connectors.
- / Heat sealed covers - Help's prevent electrolyte contamination and increase case strength.
- / Low resistance envelope separators - Encapsulated negative plates help to prevent shorting/treeing between negative and positive plates as well as aid in vibration durability.
- / Increased battery shelf life - Up to 6 months shelf life without charging due to the use of Calcium/Calcium grids. (Compared to conventional batteries.)

**Access Caps** enables you to check water (acid) level and maintain.

**Polypropylene Case**  
combines light weight  
with high-impact  
strength.

**Heat Sealed Covers**  
help prevent electrolyte  
contamination and  
increase case strength.

**Separator Envelopes**  
encapsulate plates to  
prevent shorting.

**Cutaway of Low Maintenance Accessible**

# Automotive Belts

fit with confidence!

ACDelco's range of Automotive Belts includes Drive Belts (V Belts & Micro V Belts) and Timing Belts.

## Features & Benefits:

- / ACDelco's Drive Belts (Micro-V and V Belts) are constructed to provide maximum resistance to wear and cracking.
- / ACDelco's Timing Belts are made to meet tough Original Equipment standards. This is achieved via combining high tensile strength cord and a tough wear-resistant fabric on the working tooth surface.
- / All ACDelco Belts are covered by a 12 month / 20,000 km national warranty.

# Shock Absorbers

fit with confidence!

ACDelco offers a range of Shock Absorbers and Struts for passenger cars and light commercials.

## Features & Benefits:

- / Chrome plated and highly polished piston rods for longer life.
- / Road Response speed sensitive technology for comfort and control.
- / All weather internal fluid for handling extremes.
- / Spring loaded rod seal for greater durability.
- / High pressure nitrogen gas for more consistent control (selected applications).
- / Drawn over mandrel tubing for a smoother ride.
- / Teflon impregnated "O" ring piston seal for better consistency.

# Disc Brake Rotors

fit with confidence!

ACDelco's capability to maintain extremely tight tolerances coupled with well researched design elements result in significantly improved disc rotor performance.

## Features & Benefits:

- / ACDelco Disc Brake Rotors are engineered to Original Equipment design criteria and manufactured to the demanding TS16949 quality standard in QS9000 rated facilities.
- / A focus on high quality casting materials, tight machining tolerances and key design features, ensure that ACDelco Disc Brake Rotors deliver high levels of replacement brake performance.
- / To ensure optimum performance on initial fitment all ACDelco Brake Disc Rotors are balanced during the machining process.
- / ACDelco Disc Brake Rotors are engineered to minimise brake shudder, improve thermal efficiency and reduce brake noise.
- / All ACDelco Disc Rotors carry a 12 month / 20,000 km national warranty.

**ACDelco offers a comprehensive product range to suit Most Makes Most Models.**

# Durastop<sup>®</sup> Disc Brake Pads

fit with confidence!

ACDelco Durastop<sup>®</sup> Disc Brake Pads are an ideal choice when it comes to quiet, confident and low-dust braking.

## Features & Benefits:

- / Every ACDelco Durastop<sup>®</sup> Disc Brake Pad has been formulated to the vehicle's requirements to ensure safe and consistent stopping ability.
- / ACDelco Durastop<sup>®</sup> Disc Brake Pad provide optimum noise suppression and performance using unique formulations and combined with shims, slots and chamfers where needed.
- / Each Disc Brake Pad backing plate is protected by a premium powder coated finish, ensuring professional protection and appearance.
- / The ACDelco Durastop<sup>®</sup> Disc Brake Pad's compound is of a specially formulated Non Asbestos Organic (NAO) material and is 100% asbestos free.
- / ACDelco Durastop<sup>®</sup> Disc Brake Pads friction levels are very stable across a broad range of operating temperatures, and create very low levels of dust.
- / All ACDelco Durastop<sup>®</sup> applications are designed to provide you optimum performance and durability.

**Don't forget ACDelco also offers Brake Disc Rotors and Brake Parts Cleaner to help you finish the job properly!**

Various Disc Brake Pad Profiles

# Chemicals

use with confidence!

## Combustion Cleaner

Combustion chamber deposits can cause pre-ignition, run-on, engine knock and poor engine performance.

- / Removes varnish and gum deposits from the fuel induction system to help restore optimum fuel/air flow rates.
- / Removes combustion chamber deposits to help eliminate engine knocking and pinging and improve engine performance.
- / Oxygen sensor and catalytic converter safe.

## Engine Degreaser

Oil, grease, grime build up on engines can cause excessive engine heat, and improper component operation.

- / Heavy duty cleaner cuts through tough oil and grease build up on the exterior of engines. Can also be used on industrial, lawn, garden and marine equipment.

## Brake Parts Cleaner

Oil, grease, grime, and brake fluid build up on brake component can cause improper operation.

- / Removes oil, grease, grime and dust.
- / Cleans disassembled brake parts. Also can be used for cleaning some electrical contacts, carburetor linkages, starters, alternators, electric motors. Dries without leaving residue.

## Carburetor Cleaner

Varnish, gum and deposits build up around the linkages and housing which may result in erratic engine operation such as hesitation, stalling, rough idle, poor fuel economy.

- / Rapidly removes varnish, gum deposits, dirt and grim from linkages and other external carburetor surfaces to ensure smooth mechanical operation.
- / Quick drying and effective.
- / Non-chlorinated.

## Super Penetrant

Rusted and corroded metal parts including linkages, nut and bolt assemblies, bushed or press-fit connectors, that can make disassembly and/or adjustment difficult.

- / Penetrates rust and corrosion to help free seized parts.
- / Provides lubrication.
- / Protects against further rust and corrosion, with excellent wetting capability, that can displace water in electrical connections and components.

## Crankcase Cleaner

Varnish, sludge and thickened engine oil in the crankcase and lubrication system can result in sticking hydraulic lifters, restricted lubricant supply, partial seizure between piston and cylinder walls, crankshaft and camshaft journals and bearings. This may result in cranking overload, scoring or total seizure of the engine.

- / Will assist to thin thickened oil.
- / Helps to remove sludge and varnish build-up throughout the lubrication system so that it can be drained with the used oil.
- / Contains a proven antiwear and extreme pressure additive to protect critical bearing areas and cylinder walls during flushing process.

## Fuel Injector Cleaner

Deposit build up in fuel injectors or carburetors can causes driveability problems, including hesitation, stalling, reduced power and reduced fuel economy.

- / Cleans fuel injectors.
- / Reduces carburetor deposits.
- / Helps prevent corrosion of the fuel system.
- / Helps maintain intake port and valve cleanliness.

## Fuel System Cleaner

Starting problems in the winter due to frozen moisture in fuel lines. Gum and varnish build-up in fuel system can impede fuel flow.

- / Helps remove and prevent moisture and ice from collecting in the fuel system.
- / Helps protect fuel tank and internal engine components from corrosion.
- / Helps to reduce and remove contaminants in fuel tank lines, pumps, and systems.
- / Suitable for use in carbureted and fuel injected petrol engines.

# Coolant

## use with confidence!

### Anti Freeze Engine Coolant

ACDelco Anti Freeze Engine Coolant suitable for both petrol and heavy-duty diesel engines.

#### Features & Benefits:

- / Formula suits both automotive and heavy-duty diesel engines.
- / Formulated with anti-foam characteristics, aluminum corrosion protection and heat transfer properties.
- / Provides corrosion protection for aluminum, brass, copper, solder, steel and cast iron.
- / Compatible with cooling system filters and most major brands of coolant.
- / Biodegradable in its pure unused form.
- / Mixes readily with clean tap water.

### Dex-Cool

ACDelco Dex-Cool is an extended life automotive engine coolant and anti-freeze providing up to 5 years protection.

#### Features & Benefits:

- / Provides effective, long term corrosion protection for aluminum, brass, cast iron, steel, solder and copper.
- / 5 year or 240,000 km recommended service interval when complete flush and fill is performed.
- / Protects against winter freeze up and minimizes the chance of summer boil over.
- / Compatible with water pump seal materials and minimizes the formation of abrasive dissolved solids.
- / No silicate dropout or gel formation during use or storage.
- / Biodegradable in its pure unused form.
- / Excellent heat transfer properties.
- / Nitrite, borate, phosphate, nitrate, and amine free.
- / Outstanding hot surface aluminum protection.
- / Provides protection in high operating temperatures.
- / Compatible with conventional antifreeze.

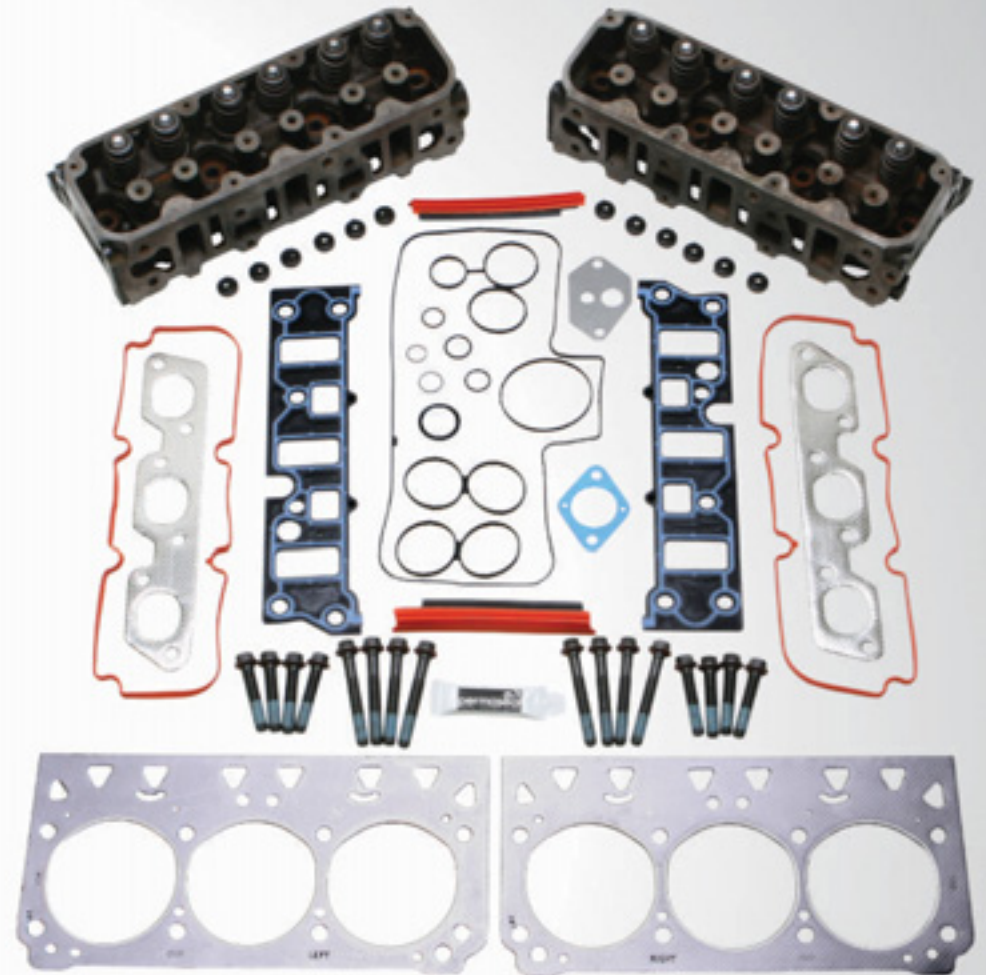

## Remanufactured Cylinder Head Kits fit with confidence!

The ACDelco Remanufactured Cylinder Head Kit program is the complete cylinder head repair solution as it also contains the gaskets and head bolts (when called for by the OE manufacturer), required to do the job.

### Features & Benefits:

- / All ACDelco Remanufactured Cylinder Heads are dismantled, thoroughly tested for cracks and corrosion and remanufactured using state of the art manufacturing facilities.
- / ACDelco Cylinder Heads include new valves and valve seats and in most applications new valve guide inserts.
- / Includes new premium gasket set and new cylinder head bolts (when applicable).
- / All petrol ACDelco Cylinder Heads are suitable for unleaded and LPG applications.
- / A comprehensive range covering car and light commercial applications.  
12 month / 20,000 km national warranty.

Remanufactured Cylinder Head Kits

# Remanufactured Engines

fit with confidence!

With a Remanufactured Engine from ACDelco, there is no need to disassemble your customer's engine and spend hours tracking the faults and repairing or rebuilding it!

### Features & Benefits:

- / All ACDelco Remanufactured Engines are dismantled and remanufactured using state of the art manufacturing facilities and strict process controls.
- / New premium quality engine components are used to replace all worn and damaged parts as well as an extensive list of mandatory replacement parts.
- / Every engine is run through a series of static and dynamic tests to ensure it meets ACDelco's strict specifications.
- / A comprehensive range covering car, light commercial, truck, LPG and industrial applications.
- / The ACDelco Remanufactured Engine catalogue also includes a detailed workshop installation guide.
- / 12 month unlimited km national warranty.

**Don't forget ACDelco also offers Spark Plugs, Filters, Drive Belts, Coolant and Oil to help you finish the job properly!**

**Remanufactured Hyundai X3 1.5L DOHC Engine**  
Part No. 17803521

**Remanufactured Ford Engine**  
Part No. 89037768

**Remanufactured Commodore V6 Engine**  
Part No. 89037903

**Remanufactured Toyota Engine**  
Part No. 17803627

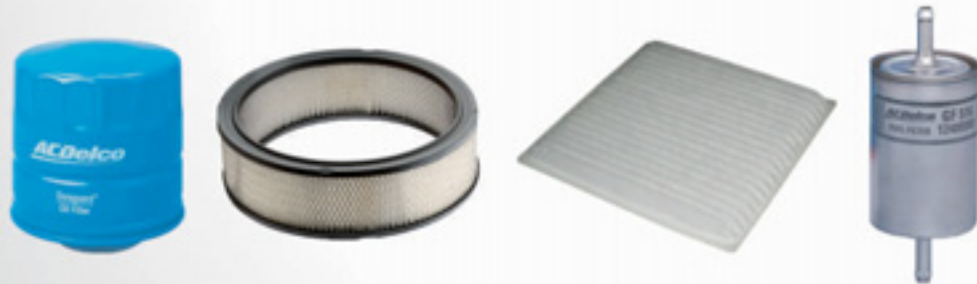

# Oil, Air, Cabin & Fuel Filters

fit with confidence!

ACDelco Oil, Air and Fuel Filters provide the first line of defence from harmful contaminants that can seriously degrade engine performance and lifespan - ACDelco Cabin Filters also look after your health and comfort.

## Features & Benefits:

- / The range of ACDelco Oil, Air, Cabin and Fuel Filters meet or exceed original equipment requirements.
- / All ACDelco Filters use world-class design, technology and engineering processes.
- / All ACDelco Filters are manufactured to the demanding TS16949 quality standard in QS9000 and ISO9001/2 accredited facilities.
- / All raw materials used in ACDelco Filters are thoroughly tested to ensure compliance to specifications.
- / Every ACDelco Filter design is tested to meet customer expectations for form, fit and function.

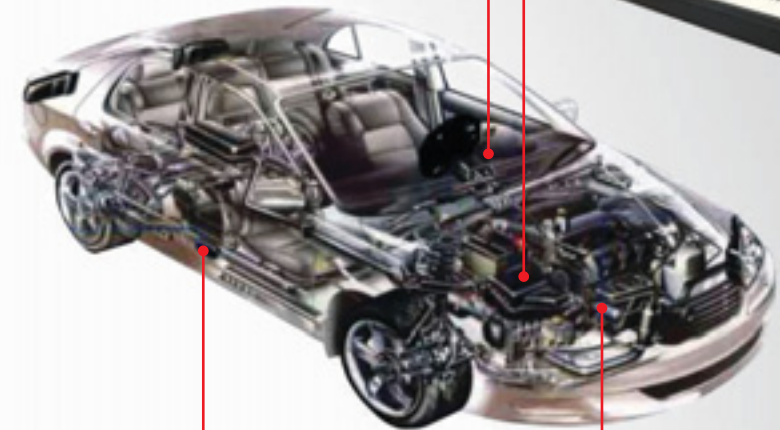

## Cabin Filter

ACDelco Cabin Filter helps protect vehicle passengers from harmful gases and airborne allergy irritants, and helps protect the vehicle's interior surfaces and trim from airborne dust and dirt.

## Air Filter

ACDelco Air Filter is most vital in keeping out the contamination of the intake system. It prevents contaminated air being mixed with the fuel before entering the combustion chamber.

## Fuel Filter

ACDelco Fuel Filter makes up the other component in keeping the intake system clean. Clean fuel will prolong the life span of the injector and maintain higher fuel efficiency.

## Oil Filter

ACDelco Oil Filter is easy to install and its primary aim is to reduce wear and tear on the engine. The oil filter removes contaminants from the frictional parts which helps the cooling and sealing of the engine to promote efficiency and cleaner environment.

# Fuel Pumps

fit with confidence!

The ACDelco Fuel Pump program offers a quality product, and all ACDelco EFI pumps are developed using computer aided design techniques.

## Features & Benefits:

- / ACDelco Fuel Pumps come as complete kits with required fitting components including:
  - Strainer
  - Gaskets
  - Hose clamps
  - Washers
  - Plug and connecting wire
  - Sleeve
  - Connecting rubber hose
- / Pumps are tested under a variety of conditions and fuels, ensuring they will stand up to harsh Australian conditions.
- / All ACDelco Fuel Pumps are covered by a 2 year / 40,000 km nation wide warranty.

*Note:* Fittings provided are dependant on kit and application.

# Transmission Fluid

use with confidence!

OE quality Transmission Fluid for passenger car and truck automatic transmissions calling for **Dexron Fluids Type III (H)** or **Dexron VI** specification.

## Features & Benefits:

- / Excellent low temperature fluidity for good cold-start shifting.
- / Protection against rust, corrosion, and wear.
- / Excellent shift quality throughout service life.
- / Cleaner transmissions by minimizing sludge and varnish deposits.
- / Compatible with all transmission seal materials.

# Engine Oil

use with confidence!

## 10W30

A premium engine oil for naturally aspirated and turbo charged petrol and LPG vehicles designed to aid in the reduction of fuel consumption and provide protection against engine wear in late design engines.

- / Protection against sludge and deposits.
- / Resists viscosity and thermal breakdown.
- / Maintains viscosity grade.
- / Maximum fuel economy (EC Rating).

## 20W50

All season multi-grade heavy duty engine lubricant for naturally aspirated and turbo charged petrol, LPG and diesel engines, designed to offer maximum protection against wear, corrosion and oxidation.

- / Very high resistance against oxidation.
- / High detergent and dispersant properties.
- / High neutralizing power.
- / Strong oil film.
- / High lubrication power.
- / Low loss by evaporation.

## 15W40

A high performance engine lubricant, designed to meet the requirements of a wide range of naturally aspirated and turbo charged gasoline and diesel engines.

- / Very high resistance against oxidation.
- / High detergent and dispersing properties.
- / High neutralizing power.
- / Strong resistance.
- / High lubrication power.
- / Very large application field.
- / Low loss by evaporation.

## 5W40

A fully synthetic engine oil designed to offer maximum performance and protection under severe conditions including European vehicle applications in petrol and diesel naturally aspirated and turbocharged vehicles.

- / Superior wear protection.
- / Excellent thermal and oxidation stability.
- / Low volatility.
- / Low maintenance costs.
- / Protects against sludging.
- / Low phosphorous levels.

# Gear Oil

use with confidence!

## 75W90

A semi-synthetic, multipurpose automotive gear oil with outstanding high temperature stability and performance.

- / Rationalisation of grades - can be used when SAE 80W/90, SAE 80 and SAE 90 viscosity grades are specified.
- / Easy cold-start gear changes.
- / Long life - increased oil change intervals.
- / Mixes with mineral gear oils.
- / Outstanding protection against wear. The lubricating film remains stable under very high loads and foaming is minimal at high speeds.
- / Protects all metals normally found in gearboxes against corrosion and does not leave deposits on oil seals.
- / Compatible with all elastomers and other sealing materials.

## LS140

An all-season, high performance, LS hypoid gear oil for highly stressed normal and limited slip differentials in cars, vans, trucks, buses, tractors, construction and industrial machinery.

- / Outstanding protection against wear. The lubricating film remains stable under very high loads and foaming is minimal at high speeds.
- / Avoids chattering and screeching even in the severest of conditions.
- / Protects all metals normally found in differentials against corrosion and does not leave deposits on oil seals.
- / Compatible with all elastomers and other sealing materials.

## 85W140 Hypoid

A hypoid gear oil for highly stressed differentials as well as other crown-wheel and pinion gears, steering mechanisms and distributor drives in vehicles and industrial machinery.

- / Good viscosity - temperature behaviour. Remains in grade even when subject to extreme loads.
- / Outstanding protection against wear. The lubricant film remains stable under very heavy loads and foaming is minimal at high speeds.
- / Protects all metals normally found in differentials against corrosion and does not leave deposits on oil seals.
- / Compatible with all elastomers and other sealing materials.

## LS90

Gear oil for highly stressed normal and limited slip differentials.

- / Outstanding protection against wear. The lubricating film remains stable under very high loads and foaming is minimal at high speeds.
- / Avoids chattering and screeching even in the severest of conditions.
- / Protects all metals normally found in differentials against corrosion and does not leave deposits on oil seals.
- / Compatible with all elastomers and other sealing materials.

## 80W90GL5

Extreme-pressure lubricants for gear boxes and rear axles, specially formulated to satisfy the highest service conditions: high speed, shock loads and high torque at low speeds.

- / Recommended for all hypoid transmissions.
- / Suitable for spiral bevel gear, worm wheels and most transaxles.

## Remanufactured Steering fit with confidence!

All ACDelco Steering Racks and Boxes are remanufactured not reconditioned, and each part endures a mandatory quality check and is fitted with the latest refinements.

### Features & Benefits:

- / ACDelco Remanufactured Steering Racks and Steering Boxes are fully remanufactured and thoroughly tested to meet the OE manufactures' specifications.
- / ACDelco Power Steering Pumps are new (most part numbers).
- / All designated high risk parts are replaced with new parts whether worn or not.
- / All electronic controlled steering racks come fitted with new solenoids/switches.
- / Critical pump applications are supplied with a power steering return hose.
- / Genuine OE components are used in the remanufacturing process.
- / Each steering gear must pass a minimum of five separate tests to attain the ACDelco remanufactured standard.
- / National 2 year / 50,000 km warranty.

**ACDelco offers a comprehensive product range to suit Most Makes Most Models.**

Power Steering Box

Power Steering Fluid Filter

Power Steering Pump

Power Steering Rack

# Spark Plugs

fit with confidence!

ACDelco has a range of Spark Plugs to meet just about all of your engine needs.

## Conventional Spark Plugs

ACDelco Conventional Spark Plugs are designed for everyday reliability and performance.

### Features & Benefits:

- / The nickel alloy centre electrode with a copper-core centre helps provide improved heat transfer from the plug tip, resulting in everyday reliability and performance while improving its resistance to low-speed carbon fouling.
- / ACDelco Conventional Plugs have a long insulator tip for improved fouling resistance.
- / Monolithic glass seal design prevents compression leakage.

Conventional

## RapidFire® Spark Plugs

ACDelco RapidFire® Spark Plugs have been designed for the improved performance that your vehicle demands, quicker throttle response, longer life and optimum efficiency.

### Features & Benefits:

- / Ribless insulator that improves the seal.
- / Tapered centre wire electrode with platinum pad.
- / Platinum tip provides improved durability.
- / Consistent starts in all weather conditions.
- / Smoother idle.

RapidFire®

## Professional Platinum Spark Plugs

ACDelco's range of full Platinum Spark Plugs has a surprisingly comprehensive coverage of various applications with a limited range of part numbers.

### Features & Benefits:

- / Designed to last 100,000 kilometres.
- / Dual platinum tip for significantly improved resistance to spark erosion and fouling.
- / Operate under higher temperatures than conventional spark plugs.
- / Platinum pads on both the centre and ground electrodes lower the ignition demand voltage and reduce possible flame kernel quenching.
- / Designed to handle increased performance demands.

Professional  
Platinum

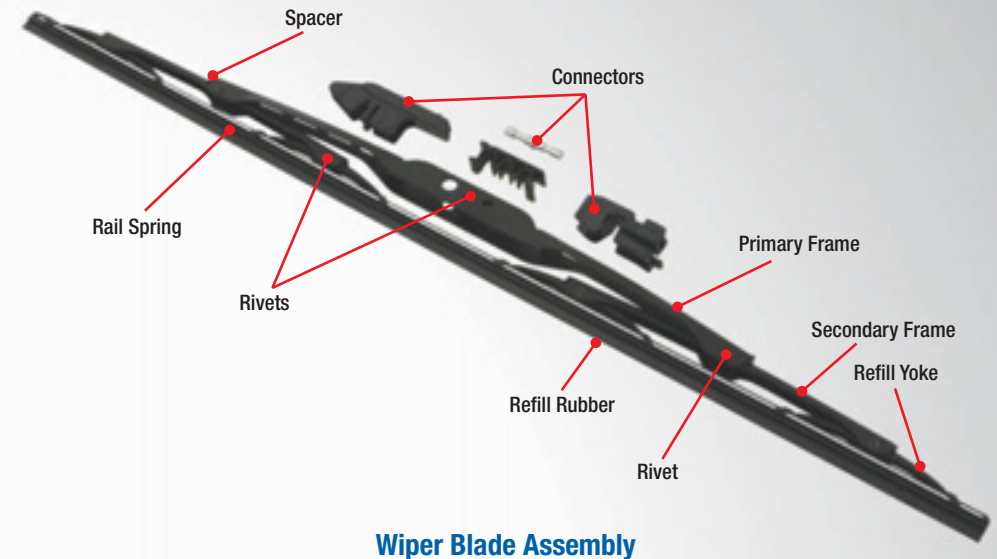

# Wipers

## fit with confidence!

There is an ACDelco Wiper product for most makes and models on the road. Once you experience the quality, effectiveness and ease of installation, ACDelco will become your brand of choice for automotive Wiper Blades or Wiper Refills.

### Features & Benefits:

- / OEM genuine quality.
- / Durability tested in weather conditions from  $-40^{\circ}\text{C}$  ~  $+80^{\circ}\text{C}$ .
- / Wiper Blades have an all metal structure and are aerodynamically designed to have an anti-lift effect at high speed driving.
- / Wiper Blades and Refills are tested for 480 hours tests snow, ice, dry and water spray. [Continuous 1.5 million cycles under wet condition (water spray: 2.0L/min).]
- / Wiper Blades are coated for anti-corrosion, and use stainless steel rivets / pivots.
- / Rubber is manufactured by three dimensional computer simulation designed to maximize wiping, eliminate noise, increase life, and also improve flexibility by introducing specially treated natural rubber. All rubber blades are made of specially moulded and processed natural rubber and feature long lasting service life and high wiping performance.
- / The Wiper Blade spacer is designed to minimize friction among parts to improve wiping quality and reduce noise.
- / The Wiper Blade vertebra spring is assembled with rubber and stainless steel spring and distributes uniform pressures to the rubber to keep the same wiping quality at all points.
- / Wiper Blades come with multiple adapters to match most vehicle arm types for easy installation.

**Wiper Blade Assembly**

**Wiper Refills**
