

Shock Absorbers fit with confidence!

ACDelco offers a range of shock absorbers and struts for passenger cars and light commercials.

FEATURES & BENEFITS:

- / Chrome plated and highly polished piston rods for longer life.
- / Road Response speed sensitive technology for comfort and control.
- / All weather internal fluid for handling extremes.
- / Spring loaded rod seal for greater durability.
- / High pressure nitrogen gas for more consistent control (selected applications).
- / Drawn over mandrel tubing for a smoother ride.
- / Teflon impregnated "O" ring piston seal for better consistency.

ACDelco offers a comprehensive Product Range to suit Most Makes & Models.

Shock Absorbers

What Are The Advantages You'll Find Inside ACDelco's Gas Shock Absorbers And Struts?

Chrome Plated & Highly Polished Piston Rods For Longer Life

Strut, Cartridge and Gas Shock rods are entirely chrome plated whether exposed or not. Piston Rods are highly polished. Chrome plating provides ...

- Smoother Surface
- Longer Seal Life

Road Response™ Speed Sensitive Technology For Comfort And Control

- ACDelco's Road Response technology is Speed Sensitive
- Automatically adjusts to provide comfort or extra control when needed throughout the entire range of motion!

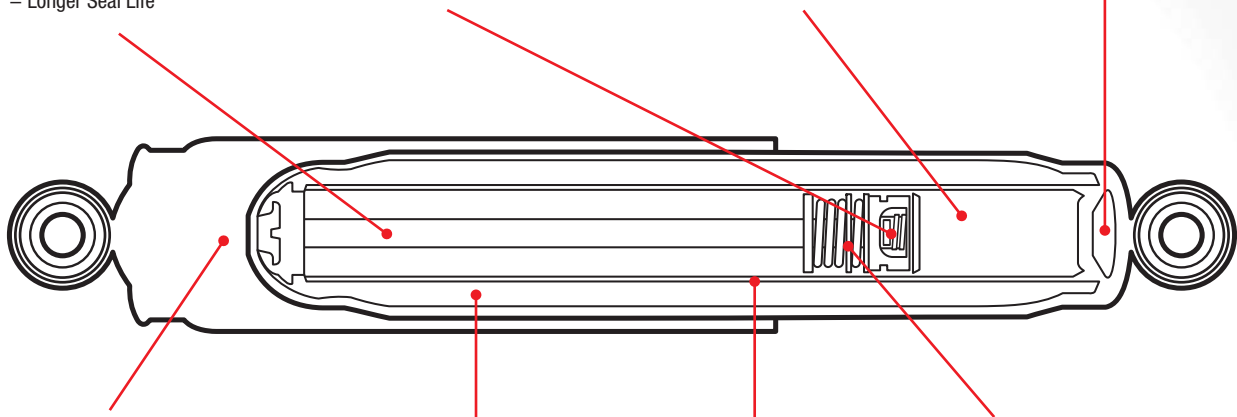

All Weather Internal Fluid Handles Extremes

All weather fluid maintains its viscosity and consistency over a wide range of operating temperatures, offering ...

- Smooth Operation
- Less Friction
- Increased Longevity

Tougher, Larger Compression Valve

- Larger, stronger valve retainer is less susceptible to damage or failure on severe impacts

Spring Loaded Rod Seal For Greater Durability

- Full perimeter piston rod seal
- Spring loaded
- Triple edged
- Seal is permanently lubricated, not requiring internal fluid to reduce seal-to-piston-rod friction
- Increased seal life

High Pressure Nitrogen Gas For More Consistent Control

- Less aeration and fade for more consistent control and increased spring rate

Teflon Impregnated "O" Ring Piston Seal For Better Consistency

- "O" Ring provides a positive hydraulic seal
- No blow by of fluids
- More consistent damping

Drawn Over Mandrel (DOM) Tubing For A Smoother Ride

Round, smooth contact surface for "O" ring piston seal, providing...

- A smoother ride and
- Longer seal life
