

BRAKE SHOES

About ACDelco Brake Shoes

ACDelco

ACDelco brake shoe's core characteristic is a highly stable coefficient of friction. This ensures consistent braking performance, at high and low speed and severe temperature fluctuations.

FEATURES & BENEFITS

- **Non-Asbestos Organic formula**
ACDelco Brake Shoes are suitable for most vehicle segments and are especially recommended for traditional drum braking systems, providing quiet and clean performance due to environmentally friendly friction material
- **Optimal friction coefficient (average μ : 0.38)**
Reliable braking in most conditions
- **Optimal friction stability**
Ensures consistent braking performance, at high and low speed and severe temperature fluctuations.
- **Special dried-friction bonding technique**
Prevents the brake liner from separating from rim
- **Coated**
Longer service life of shoe due to increased rust protection
- **Radius-ground**
Optimum braking action with reduced running-in time
- **Friction Material that is specially matched for brake shoe**
Prevents wear of drum and shoe because of compatible match
Longer service life of brake shoe due to high durability
Performance in both handbrake and service brake

ACDelco offers a comprehensive Product Range to suit Most Makes & Models.
