Combustion Cleaner

Fuel Injector Cleaner

Carburetor Cleaner

Fuel System Cleaner

Product Application			
Combustion Cleaner	Fuel Injector Cleaner	Carburetor Cleaner	Fuel System Cleaner
Combustion chamber deposits can cause pre-ignition, run-on, engine knock and poor engine performance.	Deposit build up in fuel injectors or carburetors can causes driveability problems, including hesitation, stalling, reduced power and reduced fuel economy.	Varnish, gum and deposits build up around the linkages and housing which may result in erratic engine operation such as hesitation, stalling, rough idle, poor fuel economy.	Starting problems in the winter due to frozen moisture in fuel lines. Gum and varnish build-up in fuel system can impede fuel flow.
Product Benefits			
Combustion Cleaner	Fuel Injector Cleaner	Carburetor Cleaner	Fuel System Cleaner
<ul style="list-style-type: none"> – Removes varnish and gum deposits from the fuel induction system to help restore optimum fuel/air flow rates. – Removes combustion chamber deposits to help eliminate engine knocking and pinging and improve engine performance. – Oxygen sensor and catalytic converter safe. 	<ul style="list-style-type: none"> – Cleans fuel injectors. – Reduces carburetor deposits. – Helps prevent corrosion of the fuel system. – Helps maintain intake port and valve cleanliness. 	<ul style="list-style-type: none"> – Rapidly removes varnish, gum deposits, dirt and grim from linkages and other external carburetor surfaces to ensure smooth mechanical operation. – Quick drying and effective. – Non-chlorinated. 	<ul style="list-style-type: none"> – Helps remove and prevent moisture and ice from collecting in the fuel system. – Helps protect fuel tank and internal engine components from corrosion. – Helps to reduce and remove contaminants in fuel tank, lines, pumps, and systems. – Suitable for use in carbureted and fuel injected petrol engines.
Part Number			
Combustion Cleaner	Fuel Injector Cleaner	Carburetor Cleaner	Fuel System Cleaner
88900161 454ml Aerosol	88900162 350ml Bottle	88901042 435ml Aerosol	88901983 350ml Bottle

ACDelco offers a comprehensive Product Range to suit Most Makes & Models.

Chemicals

Brake Parts Cleaner

Super Penetrant

Engine Degreaser

Crankcase Cleaner

Product Application			
Brake Parts Cleaner	Super Penetrant	Engine Degreaser	Crankcase Cleaner
Oil, grease, grime, and brake fluid build up on brake component can cause improper operation.	Rusted and corroded metal parts including linkages, nut and bolt assemblies, bushed or press-fit connectors, that can make disassembly and/or adjustment difficult.	Oil, grease, grime build up on engines can cause excessive engine heat, and improper component operation.	Varnish, sludge and thickened engine oil in the crankcase and lubrication system can result in sticking hydraulic lifters, restricted lubricant supply, partial seizure between piston and cylinder walls, crankshaft and camshaft journals and bearings. This may result in cranking overload, scoring or total seizure of the engine.
Product Benefits			
Brake Parts Cleaner	Super Penetrant	Engine Degreaser	Crankcase Cleaner
<ul style="list-style-type: none"> Removes soil, grease, grime and dust. Cleans disassembled brake parts. Also can be used for cleaning some electrical contacts, carburetor linkages, starters, alternators, electric motors. Driers without leaving residue. 	<ul style="list-style-type: none"> Penetrates rust and corrosion to help free seized parts. Provides lubrication. Protects against further rust and corrosion, with excellent wetting capability, that can displace water in electrical connections and components. 	<ul style="list-style-type: none"> Heavy duty cleaner cuts through tough oil and grease build up on the exterior of engines. Can also be used on industrial equipment, lawn & garden equipment, marine equipment. 	<ul style="list-style-type: none"> Will assist to thin thickened oil. Helps to remove sludge and varnish build-up throughout the lubrication system so that it can be drained with the used oil. Contains a proven antiwear and extreme pressure additive to protect critical bearing areas and cylinder walls during flushing process.
