

ACDelco Engine Oil

Mineral

General Description		
10W-30	15W-40	20W-50
Specially formulated to meet the demands of late generation petrol engines. Formulated to increase service intervals, it will also aid in the reduction of fuel consumption whilst providing optimal protection against engine wear.	A high performance engine lubricant, designed to meet the requirements of a wide range of naturally aspirated and turbo charged petrol and light duty Diesel engines.	All season multi-grade heavy duty engine lubricant for naturally aspirated and turbo charged petrol, LPG and Diesel engines, designed to offer maximum protection against wear, corrosion and oxidation.

Advantages		
10W-30	15W-40	20W-50
<ul style="list-style-type: none"> Protection against sludge and deposits. Resists viscosity and thermal breakdown. Maintains viscosity grade. Very high resistance against oxidation. Recommended for Petrol, LPG and E10 fuelled engines. Low loss by evaporation. Suitable for use where a GF-5 is specified. 	<ul style="list-style-type: none"> Very high resistance against oxidation. High detergent and dispersing properties. Very large application field. Low loss by evaporation. High performance in high and low temperature conditions. Excellent protection against wear. Recommended for Petrol, light Diesel, LPG and E10 fuelled engines. 	<ul style="list-style-type: none"> Very high resistance against oxidation. High detergent and dispersant properties. Low loss by evaporation. High performance in high and low temperature conditions. Excellent protection against wear. Recommended for Petrol, light Diesel, LPG and E10 fuelled engines. Very large application field.

ACDelco offers a comprehensive Product Range to suit Most Makes & Models.

Approvals and Performance Ratings

10W-30	15W-40	20W-50
Petrol powered engines that specify the use of a SAE 10W-30.	Mercedes-Benz MB229.1 This all seasons oil is especially recommended for mixed fleets (passenger cars and light commercial vehicles). It can be used in most services, in Diesel engines with natural aspiration or with turbo discharge and in most petrol engines.	Up-to-date 4-stroke Petrol engines (multi-valves, turbo, etc.). 4-stroke Diesel engines of passenger cars, with or without turbo.
