

ACDelco Oil, Air, Cabin & Fuel Filters

Oil, air and fuel filters are vital components in any engine. They provide the first line of defence from harmful contaminants that can seriously degrade engine performance and lifespan. The decision to use ACDelco Filters is one of the easiest and most cost effective ways of providing the protection engines need, with the quality and price customers expect. ACDelco Filters are a premium range of filters for the Australian market. They consist of Oil, Air, Fuel and Cabin Filters covering numerous different applications from automotive to light commercial to off road. ACDelco Filters are manufactured to ISO TS16949:2002 and ISO 9001 international standards.

Cabin Filter

ACDelco Cabin Filters help protect vehicle passengers from harmful gases and airborne allergy irritants, and helps protect the vehicle's interior surfaces and trim from airborne dust and dirt.

Air Filter

ACDelco Air Filters are vital in preventing the contamination of the intake system. It prevents contaminated air being mixed with the fuel before entering the combustion chamber.

Fuel Filter

ACDelco Fuel Filters make up the other component in keeping the intake system clean. Clean fuel will prolong the life span of the injector and maintain higher fuel efficiency.

Oil Filter

ACDelco Oil Filters are easy to install and their primary aim is to reduce wear and tear on the engine. The oil filter removes contaminants from the frictional parts which helps the cooling and sealing of the engine to promote efficiency and a cleaner environment.

ACDelco offers a comprehensive Product Range to suit Most Makes & Models.

ACDelco Oil, Air, Cabin & Fuel Filters

Cut Away of an ACDelco Oil Filter.

DURAGUARD OIL FILTERS

ACDelco Oil Filters are used to remove harmful contaminants from the engine lubrication system, and contribute to consistent oil flow management. ACDelco products meet or exceed all application requirements and provide a mix of filtration performance, flow management (hot, cold, and with water present) and product durability.

Features & Benefits

- / Filters are tested to meet customer expectations for fit, form and function.
- / The advanced ACDelco Oil Filter design helps trap harmful microscopic contaminants.
- / The cellulose and synthetic fibres used in Duraguard oil filters can effectively trap contaminants as small as 25 microns, (one third the width of a human hair).
- / Duraguard filters are designed to have high efficiency capabilities throughout the entire life of the filter (other filters may only provide high efficiency at the latter part of the filter life).
- / ACDelco have a range of quality dual flow oil filters to suit numerous Diesel vehicles.

AIR FILTERS

ACDelco Panel and round Air Filters trap microscopic particles that can damage the engine, cylinder walls, pistons and piston rings. ACDelco Air Filters have been designed and developed with the original equipment and application needs considered. They meet or exceed the application requirements with soft, pliable seals for leak free installations, excellent high temperature integrity and engine vibration and temperature durability. ACDelco Air Filters employ resin impregnated media and optimal pleat counts to increase their contaminant holding capacity.

Features & Benefits

Panel Type Air Filters

- / Urethane gasket, low effort installation provides maximum seal.
- / Linear airflow direction allows only clean air to enter the engine.
- / Bonded folds prevent dust from entering engine.

Round Type Air Filters

- / Plastisol end seals prevent dirt from entering combustion chamber.
- / Metal clips keep dirt and dust in the filter.
- / Inner screen provides backfire protection for media.
- / Resin impregnated media provides greater dust and dirt holding capacity.

For full application details refer to the ACDelco Filter catalogue available from your ACDelco Distributor or Stockist or download it from www.acdelco.com.au

FUEL FILTERS

ACDelco Fuel Filters are designed and developed with the original equipment and application needs in mind. They meet or exceed all application requirements and assist in providing the correct overall mix of filtration performance, materials compatibility, flow management and durability. The complete range of ACDelco Fuel Filters are E85 compatible.

Features & Benefits

Fuel Filters to suit carburettor applications

- / Direct installation into the fuel line adds greater versatility when used with other fuel system protectors.
- / Resin impregnated pleated paper filtering media increases filter capacity.
- / Tube type fittings allow easy installation in all types of fuel lines.

Fuel Filters to suit fuel injection applications

- / Seams designed to withstand the high pressure of fuel injected systems.
- / Filter media phenolic impregnated to increase filter capacity, efficiency and rigidity.
- / Inner end plates made of specially coated material that is chemically resistant to all fuels currently available.
- / Fittings in a variety of styles including O-ring, tube and new quick connect style providing easy installation with less labour and tooling.

CABIN FILTERS

ACDelco Cabin Air Filters help improve cabin air quality by reducing air borne particles and contaminants such as pollen, mould, odors, fumes, smoke and dust.

Features & Benefits

- / ACDelco Cabin Air Filters have advanced filter media technology which helps keep pollutants out of the interior for more comfortable travel.
- / Are highly durable and reliable.
- / Can remove most allergens from the air entering the vehicles ventilation system.
- / ACDelco Cabin Air Filters are available to suit most makes and models.
