

# Fuel Pumps fit with confidence!

All ACDelco EFI pumps are developed using the latest computer aided design techniques and are extensively tested under a variety of conditions and fuels, ensuring they will stand up to harsh Australian conditions.

## FEATURES & BENEFITS:

The ACDelco range includes model specific internal and / or external pump and module assemblies in either low or high pressure design depending on application.

ACDelco Fuel Pumps come as complete kits with required fitting components including:

- / Strainer
- / Gaskets
- / Hose clamps
- / Washers
- / Plug and connecting wire
- / Sleeve
- / Connecting rubber hose

Note: Fitting Kit content provided with the pump varies dependent upon Pump application.

ACDelco EFI Fuel Pump modules are supplied as a complete assembly. They replicate the OE assembly and include pump, sender, float and strainer in a pre-assembled ready to fit unit.

Fitting instructions are included with each EFI Pump.

Pumps are individually factory tested and sealed.

**ACDelco offers a comprehensive Product Range to suit Most Makes & Models.**
